

**BITCUPEX**

**LITEPAPER**

## **INTRODUCTION:**

**Bitcupex (BEX) is a DeFi project built on Binance Smart Chain (BSC) that offers Decentralized Exchange - Wallet - P2P Trading Platform & Digital Payment System.**

## **USE CASES:**

### **1. "Bitcupex Decentralized Exchange"**

We are building an easy-to-use Decentralized Exchange where users will get a friendly interface like Centralized Exchange, in early-stage users can use Bitcupex DEX much like PancakeSwap & Uniswap.

But we will take the trading experience on Bitcupex DEX to the next level by adding multiple features like Futures & margin trading, cross-chain transactions, integration of crypto wallet, algo trading system, verified token listing, gasless token swaps – in secure way with continues improvement.

## 2. "Bitcupex Wallet"

In our security audited Bitcupex wallet, Users can send, received & store their Bitcoin, Ethereum, USDT and other cryptocurrencies.

- Non-custodial
- Decentralized wallet
- Easy transfer and low fees
- Integrity and stability
- Ease of use
- Push Notifications - QR code Scanner with many more useful features.

### 3. “Bitcupex P2P Exchange”

We will provide escrow system P2P marketplace for BTC/USDT/BUSD/BNB/BEX, with multi-layer security.

- where people can easily buy and sell safely with notable simple UI.
- Friendly online 24/7 customer support will be given and lowest fee compare to major exchanges on the market.

4. Additional feature is "**Digital Payments System**" in Bitcupex P2P exchange platform, where users will able to Send & Received “**Worldwide Digital Payments**” in USDT/BUSD/BNB/BEX just by an E-mail or Mobile Number with low fees and fast transactions.

*Complete technical details of use cases will be provided in Whitepaper (I).*
